Tuscola--Beautiful Garden

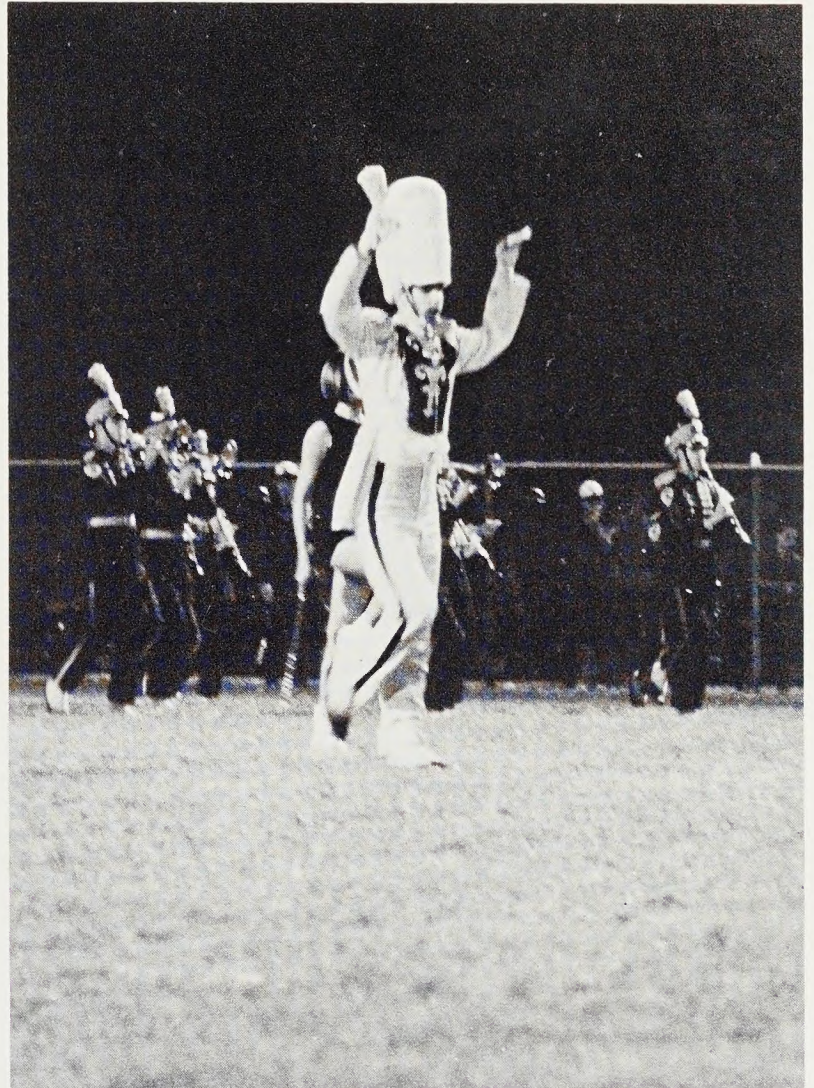

THE TUSCOLA MOUNTAINEER

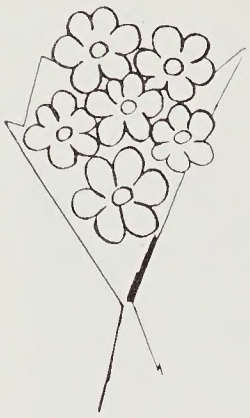

1967-1968

Tuscola resembles an extensive and highly cultivated garden, where there is a vast variety and profusion of flowers and trees, some of which are more essential or more splendid than others; but each blossom, each branch adds their own special beauty and use to the system.

As the flowers grow...

*"Nature and wisdom
always say the
same."*

So grow our experiences.

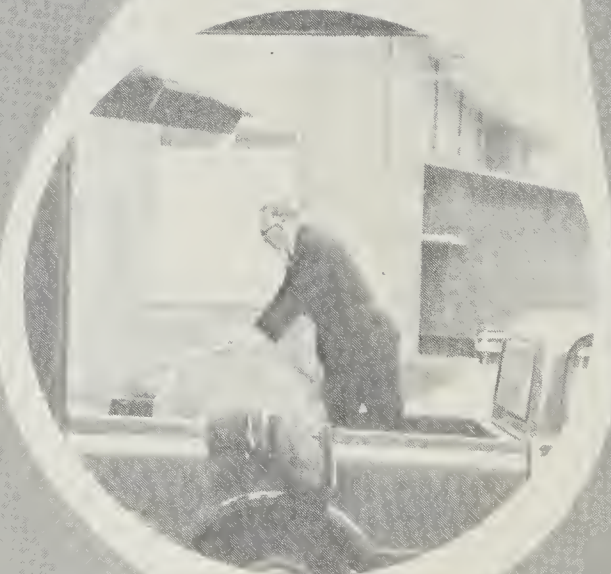

The mountains are God's thoughts piled up.

The ocean is God's thoughts spread out.

The flowers are God's thoughts in bloom.

The dew drops are God's thoughts in pearls.
